

Textile Cleaner Kit with Spot Removers

Contents:

- Textile Cleaner 400ml. Water based foam cleaner. Efficient and gentle on most kinds of textiles.
- Spot Remover 1 100 ml. Water based spot remover with pH 8.5
- Spot Remover 2 100 ml. Petroleum based spot remover
- Spot Remover 3 100 ml. Spirit based spot remover.
- Spot Remover 4 10 gm. Citric acid for bleaching spots. Mix 1 teaspoon in 100 ml hot water.
- Microfibre cloth white. For light soiling. Soak the Microfibre cloth in hot water, add small quantity of Textile Cleaner, wring out to remove excess water. Then tightly roll the hot and damp Microfibre cloth into a tube shape and brush over the soiled surface in different directions until the soiling has been lifted.
- Non Woven white cloth – use with Spot Remover 2 + 3. (Always dab up and down).
- 2 blue sponges - use for foam cleaning with Textile Cleaner and Spot Remover 1

Warning! Textiles, which are dry-clean only, can be affected by water-based products. Please note! Spot removing is carried out at one's own risk. If uncertain contact a specialist.

Stain Removal, please read before using Textile Cleaner and Stain Removers.

- Most stains can be removed with Textile Cleaner.
- If a stain is treated quickly, it is easier to remove.
- Before using any products, do a "hidden test" to check colour-fastness, etc.
- Excess substances should be blotted up or scraped off with a blunt knife before treatment.
- If possible, remove the stain from underside of the fabric.
- Put a generous quantity of absorbent uncoloured kitchen paper towel under the stained fabric. Move and replace the towel as the stain is lifting.
- Work the stain in circles from the outside towards the middle by dabbing. Do not rub.
- Apply Textile Cleaner and "Tap" with washing up brush (dish-brush) on the stain. This help the stain dissolve quicker.
- To prevent rings occurring from liquid stains, leave a "damp zone" in the outer circle.
- Note the type of stain for further assistance e.g. water based, grease based, solvent based, etc.

On the reverse there is a Stain Remover Chart. Please note complete stain removal cannot be guaranteed.
